

Geriatric care management

Compassionate elder care assistance

Caring for loved ones can be rewarding. These new responsibilities can also upend your daily routine and cause stress. Our Geriatric Care Management program can help.

The program offers practical solutions designed to keep your loved one safe. It is offered at no extra charge through your employee assistance program (EAP).

Customized resources

The program connects you to a geriatric care specialist. They will help you build a care plan and can refer you to services such as:

Home health.

Household maintenance and lawn care.

Meal prep and grocery delivery.

Transportation solutions.

Assisted living or nursing home care.

Peace of mind for your family

Our specialists are available nationwide. They can help your loved one, even when you're far away. The program includes:

- 6 hours with a geriatric care specialist.
- An initial phone consultation.
- An on-site assessment of the elder's living environment.
- A written report or facility review.
- A review of financial, legal, and medical issues to coordinate the best care possible.
